ASSEMBLEA PUBBLICA

PRESENTAZIONE DEI RISULTATI DEL WORKSHOP

ESTRATTIVISMO

identifica un fenomeno globale di sfruttamento dei territori, fondato su tre meccanismi:

- appropriazione privata delle risorse naturali;
- condizionamento della democrazia a favore degli interessi economici multinazionali;
- controllo dello spazio pubblico, attraverso l'uso della forza e della repressione contro il dissenso delle popolazioni locali.

Riconosciuto dalle Nazioni Unite come una delle principali cause dei conflitti ambientali e climatici del nostro tempo, esso si è ormai diffuso ovunque, compresa l'Italia e lo stesso Salento. A BORGAGNE SCIENZIATI SOCIALI E MOVIMENTI PROVENIENTI DA TUTTO IL MONDO DISCUOTONO METODI PARTECIPATI DI OSSERVAZIONE DEL FENOMENO.
